

Lesson 1: The 'B' sound

This is the imitation of the Bass (or kick) drum.

It is usually written as a B or P on beatbox flute scores.

To produce a strong sound:

- Say 'B' without any voice
- Try to keep your throat open (ow sound, larynx is low)
- Keep your face relaxed and your lips firm
- Let the air pressure build up behind your lips
- Let the lips buzz as you release them

The B sound

- Is usually used on the strong beats in a bar
- Can only be produced on an exhale
- Can be used with Aeolian or full tone
