

Lesson 2: The 'T' and 'Ts' sounds

This is the imitation of the high hat.
It can be open (T) or closed (Ts)

It is usually written as a T or Ts on beatbox flute scores.

To produce a strong sound:

- Say 'Tuh' without any voice (add an S to make Ts)
- Try to keep your throat closed (ng sound, larynx is high)
- Let the air explode from your teeth
- Increase your breath support

The T and Ts sounds:

- Are often used on off beats or between beats
- Can be produced on an exhale or an inhale
- Can be used with Aeolian or full tone
